

WACA Wednesday 6/10/2020

General Session

WACA and AWSL are working on our partnership. We believe that both organizations can support each other.

We will be partnering with AWSL on Mentorship. On our website there will be two google forms – one form if you would like to mentor others and one form if you would like to be mentored. AWSL also had people sign up at WACA – you do not need to sign up again. We will combine data and information.

WACA would like to offer a PLC option? Is there interest? We believe there is. Looking at the options and what that could include. Possible start mid-August followed by 20 sessions. We will ask our clock hour coordinator if clock hours could be an option. Topic possibilities – ASB Law, Flip Classroom, New Adviser session. Stay tuned the WACA Board will be having further discussion.

WACA Wednesday's – feedback from those who have been attending is that they are helpful, useful, and a great connection for resources, getting questions asked and encouragement. The group that met today wouldn't mind having WACA Wednesday's through June – hoping we will have a direction on what school will look like in the fall. WACA recommends we take July off for rejuvenation and reconvene in August.

Greg Barker has asked if you are new to your position or know new advisers please update your information with AWSL, they have a new data system.

AWSL is offer summer leadership days. The bonus is they come to you. Check out their website to get more information. awsleaders.org

Breakout Session - Middle School/Junior High

MS Breakout -- How have you shown resilience this year? Staff? Community? Admin?

Clarissa Rinehart - end of the year awards ceremony went virtual, everything went virtual (Kelso)

David Volke (Liberty MS) - equity work, district book talks (So you want to talk about race?, White fragility) tough conversations, reflection

Becky Latham (Glacier MS) - things you think can't be done until you have to find a different way to do it. How can parents and students access materials from school? Why don't we continue to offer zoom meetings for parents when we return next year? Stretching our thinking - ways to provide opportunities for parents to engage

Misty Gruber (Cedarcrest MS) - okay to say, I don't know how to do this. Asking for help.

Terry Burns (McClure MS) - students who are engaged in the work are very resilient. Hard part students who are not engaged. Resilience in staff - commitment to equity

Bobby G - third year of teaching PE, 196 students, maybe 15 have looked at the work and seven have actually done it. Proud of the resilience of those seven students.

MS Breakout -- Virtual Assemblies

Info night for incoming 6th graders - David Volke. Worked pretty well. Some interesting comments in the chat from students

Virtual talent show - Andrea Miele

Lana Yenne (Yelm) - fundraiser kick-off assembly will meet with representative from the company

Jen Schlegel- first year advisor(Harrison MS) - many welcome activities, greeting from teachers,

Eli Holm - 5th grade take over of Google classroom, admin answered questions, met virtually with 5th graders, mailed swag to 5th graders

Misty Gruber - more community building as opposed to event based, what are some ideas for community based events that won't require our typical silly, interactive leadership games

Lana - idea - video tape announcements, have mayor come in and say hi, give some history

David V. - recreation of radio shows, fun, engaging, more likely to listen to

Rebecca B - excited for culture building, make a bigger impact

Becky L - Words of Wisdom, screencastify

Susie B - Flipgrid, 6th graders ask questions, 8th grade mentors answer the questions

Jen S - Book, Unselfie, how do we put that in action? Action ideas for how to put this into practice. Character Strong Facebook page.

David V. - there is not a single thing that is going to shape your culture in one year. 3-5 year process.

MS Breakout -- What support do you need moving into next year?

Lana Y - something concrete so we can build a foundation for next year. What do we even need to come up with?

Terry B - the model we are looking at is maybe A and B days, classes of 50 %. Quarantine - distance learning. Preparing to launch to be much more effective at distance learning so we can be nimble and flex. Trial and error - learn from experience. Being flexible.

Rebecca B - needing so much support I'm not sure even what to ask. This is my first WACA Wednesday, but it has been very helpful. I've written down many ideas.

From the MS Chat

From MS Jen Schlegel: Have you guys done virtual assemblies? We are trying to welcome our incoming 6th graders and would love ideas.

From MS Clarissa Rinehart: We did a screencastify video of combined videos for our awards ceremony as well as our 5th grade visit.

From Becky Latham Glacier MS: We recorded welcome videos from each teacher and sent those to 5th graders. We are also hosting zoom meetings with admin, counselors, and various teachers this week, to welcome students, answer questions.

From Clarissa Rinehart: We will also most likely have to use screencastify for our ASB election speeches in the fall.

From Becky Glacier MS: You could do a scavenger hunt, or name that tune. For name that tune, you could have them answer in the chat

From Rebecca B Jemtegaard MS: Give them something to vote on for some interaction maybe? Challenges or dress up?

From Liberty MS - David Volke: Is that like a WEB program Susie?

From MS Jen Schlegel: I'm doing WEB via zoom in August

From MS Susie Bennett: Yes, we are doing WEB.

From Liberty MS - David Volke: Last day is June 19th
Dr. Michelle Borba
From MS Jen Schlegel: Book: Unselfie Dr. Michele Borba
Her webinar was about how resilience and empathy work hand in hand.

Breakout Session High School

HS Breakout -- What we need:

Megan Baxter – Think about what I can control and what I can't. Try not to focus on what others are doing. Our districts, schools, county are all different that makes comparing really hard.

Christina Peabody – How to do things virtually and maintain community. What can we do that is new and different?

Angela Ferda – How to build relationships thru the screen? Some teachers struggle in person – then put them behind a screen the struggle can be worse.

Cassandra Loffler – Mentorship virtual? I send trained students into classrooms monthly for peer connections.

Cassandra Loffler – Professional development this summer would be helpful.

Geoff Sims – Would like to meet after the state and districts makes a decision on school for 20-21. I think we will have lots of questions at that point.

Angela Ferda – Safe ways to have students connect virtually.

Kelli MacLeod – One of the teachers in her building is holding Kahoot Fridays for students weekly. One Friday a month they invite staff. He is using next years class list to hold Kahoot Fridays this summer to make connections with the new class list.

Christina Peabody – Can we connect leadership students via Zoom with other leadership students for Idea Share and Brainstorming. Thinking August would be the time – We might want to group by region and/or size.

Jana Thomas – Would like ideas on how you are training your officers virtually this summer.

HS – What went well this year?

Christina Peabody – We pulled off everything we would do at the end of the year in virtual form. Our Senior Follies that has a 40-year legacy raised more \$ for charity this year than recent years past.

Stephanie Kinney – Our Senior Assembly

Stephanie Kinney – Would like more help learning Zoom.

Geoff Sim – They sent out a google form to teachers asking if they would like teacher sign – 70 teachers said yes – students volunteered to make signs for the teachers front doors. Teachers said it was an incredibly positive activity.

Jason Simonson – Virtual recognition - used an excel mail merge and electronically sent out certificates to over 200 kids in a matter of minutes.

Kelli MacLeod – Drive thru graduation. It felt like the whole town came out on the parade route.

Charlie Hilen – Victory is where our Seniors walk the halls of our elementary schools. This year they set up a parking lot with Aisles that cars could drive thru to recognize the Seniors. They had over 300 cars drive thru the seniors.

Kelli MacLeod – A junior student planned a Black Lives Matter march. Her planning started with a meeting with Chief of Police. Over 100 students and staff members attended.

Stephanie Kinney – Virtual Announcements, Black Lives Matter, Will continue to meet with students who want to continue the conversations.

Christina Peabody – Our We Club asked if they could meet weekly. During our online learning time they have been meeting on Fridays using Zoom. The goal of this club is to make a difference.

Topics for other WACA Wednesdays

Online lessons – what does this look like – how to make them the best they can be
Practice using Kahoots, Zoom, Teams, Flipgrid etc.
